INFINITE COMBINATORICS

Organizer Mauro Di Nasso

In this workshop, three different aspects of the current research in infinite combinatorics will be covered:

- Ultrafilters and other non-elementary tools in combinatorics of numbers (Mathias Beiglböck, Wien, Austria)**
- Combinatorics of numbers by the methods of nonstandard analysis (Renling Jin, Charleston, USA)**
- Infinite combinatorics in set theory (Boban Velickovic, Paris VII, France)**
